

JORDAN ROAD SURFACING LTD.

ENVIRONMENTAL POLICY

Jordan Road Surfacing Ltd is a Road Planing and Road Surfacing company operating on a national basis covering all parts of Great Britain.

Our Director, Managers and all personnel have a major part to play in ensuring our operations comply with all legal and other requirements.

Environmental Objectives: -

- Minimise the environmental impact effect at all its locations of work.
- Ensure sufficient resources are available to implement environmental practices.
- Identify opportunities to enhance the environment.
- Maintain the existing environment.

This can be achieved by the following: -

- Conduct audit / inspections to ensure compliance with all Environmental requirements.
- Provide appropriate instruction and environmental training to all its personnel.
- Prevent pollution, reduce waste where possible by recycling materials, using local suppliers / facilities as a method of reducing CO2 emissions and minimise any impact on wildlife.
- Assess environmental aspects of our operations (both positive and negative) and where necessary implement changes to procedures to mitigate effects.

The above systems are only our starting point and continued improvements by all, will be able to enhance our environment.

Director: B.R. Jordan M.I.A.T.
